

## Appointment

---

**From:** Meetings [meetings@meetings.callinfo.com]  
**Sent:** 3/6/2017 2:39:32 PM  
**To:** Meetings [meetings@meetings.callinfo.com]; Lloyd, Tyler [Lloyd.Tyler@epa.gov]; Keller and Heckman LLP [announcements@khlaw.com]  
**Subject:** TSCA 30/30 - March 8, 2017  
**Location:** View Invite for Meeting Details  
**Start:** 3/8/2017 6:00:00 PM  
**End:** 3/8/2017 6:30:00 PM  
**Show Time As:** Busy

**Description:** Keller and Heckman LLP and Cardno ChemRisk present a webinar series on the changes to the Toxic Substances Control Act (TSCA) resulting from the June 22, 2016 passage of the Frank R. Lautenberg Chemical Safety for the 21st Century Act (Lautenberg Act).

March 8th Topic: EPA's Call for Use Information for the First 10 Chemicals to Undergo Risk Evaluation  
This month we will discuss EPA's Call for Use Information for the First 10 Chemicals to Undergo Risk Evaluation. EPA is beginning the process to define the scope of the risk evaluation that it will conduct for the following chemicals: 1,4-Dioxane; 1-Bromopropane; Asbestos; Carbon Tetrachloride; Cyclic Aliphatic Bromide Cluster; Methylene Chloride; N-methylpyrrolidone; Pigment Violet 29; Tetrachloroethylene; and, Trichloroethylene. As part of that process, EPA is asking for use and conditions of use information for these chemicals. During this webinar we will discuss:

- What Information is EPA requesting;
- How to Respond to EPA's information request;
- How EPA considers uses and specific conditions of use in a risk evaluation?
